

$$1. -4 + (+8) = f$$

$$2. 7 + (+9) = n$$

$$3. -8 - (+1) = i$$

$$4. -7 + (-5) = g$$

$$5. -32 + (-17) = a$$

$$6. 23 + (+6) = r$$

$$7. -4 + (-2) + (+9) = W$$

$$8. 27 + (-7) + (-8) + (+19) = S$$

Riddle:

If a brother, his sister, and their dog weren't under an umbrella, why didn't they get wet?

Answer:

$$\begin{array}{r} \overline{\quad} \overline{\quad} / \overline{\quad} \overline{\quad} \overline{\quad} \overline{\quad} \overline{\quad} / \\ -9 \quad 4 \quad 3 \quad -49 \quad 6 \quad 16 \quad 4 \end{array}$$

$$\begin{array}{r} \overline{\quad} \overline{\quad} \overline{\quad} \overline{\quad} \overline{\quad} \overline{\quad} \\ 29 \quad -49 \quad -9 \quad 16 \quad -9 \quad 16 \quad -12 \end{array}$$
